HDMI Cable Certification Labels

Information on support for
the original Generation 1
and transition to Generation 2 labels

The HDMI Cable Certification Program supporting both Premium and Ultra High Speed HDMI Cables is changing to a new generation (Gen 2) label and a new label fulfillment supplier.

Until the original Gen 1 Certification Label inventory is depleted it will continue to be used for some of the orders, and Gen 1 labels may be combined with the new Gen 2 labels for some order fulfillments.

Original Gen 1 labels will continue to be supported for the proprietary scanning app for the immediate future.

Gen 1

HDMI Cable Certification Labels

Gen 2 Physical Updates

Gen 2

"HDMI" branded anti-counterfeit hologram strip added to top

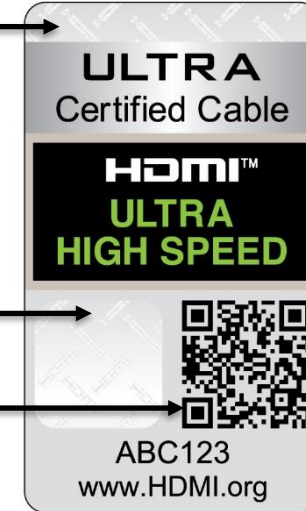

"HDMI" branded anti-counterfeit hologram replaces shield-shape hologram

QR code replaces data matrix code

Different label production materials

Same dimensions

Gen 2

Gen 1

HDMI Cable Certification Labels

Verification Scanning Changes
with Current HDMI App

Gen 1

Cable info is verified.
No change as app will continue to be supported for the near future.

Scan with the current HDMI proprietary scan app

Message will state that code cannot be read and standard QR code reader should be used and with that the cable info is verified.

Gen 2

HDMI Cable Certification Labels

Verification Scanning Changes with Standard Mobile App Reader

Gen 1

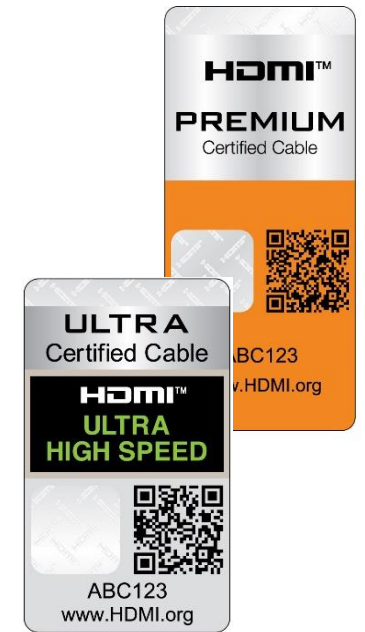

No change, users are redirected to the app stores to download the HDMI proprietary app and after installation the cable info is verified.

Scan with a standard mobile code reader app that reads both QR and data matrix codes

Cable info is verified

Gen 2

HDMI 线缆认证标签

关于支持原始第一代进化到第二代的相关信息

HDMI线缆认证计划同时支持Premium和Ultra High Speed Cables正在改进为新一代（第二代）标签以及新的供应商

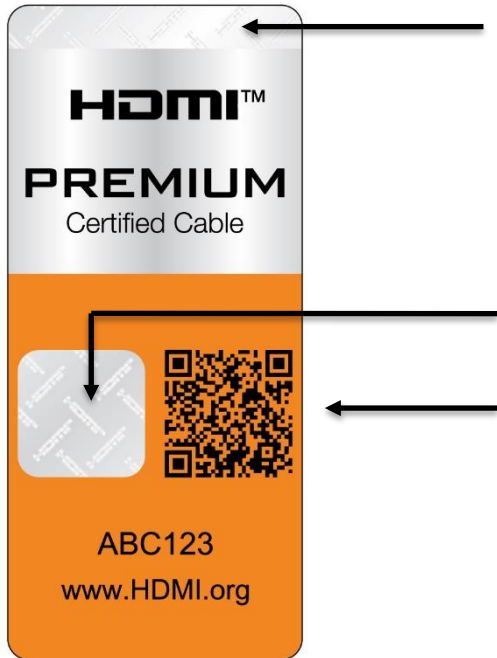

在原始第1代认证标签库存用完之前，它将继续用于某些订单，并且第1代标签可能会与新的第2代标签结合用于满足某些订单

短期内，专用扫描应用程序将继续支持原始第1代标签

第1代

第2代

HDMI线缆认证标签

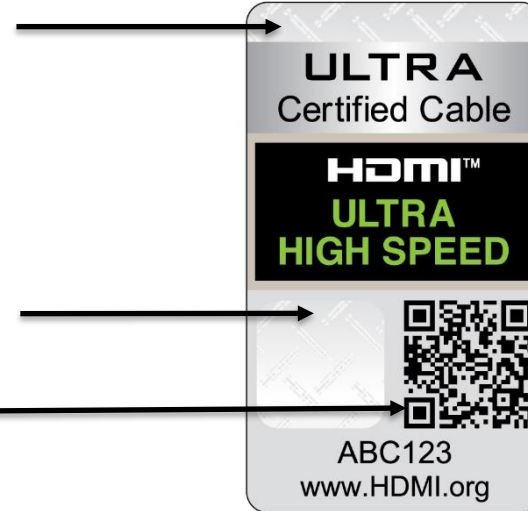

第2代标签外表更新

“HDMI”品牌防伪条形影像
新增于顶端

HDMI品牌防伪影像取代
盾型影像

二维码取代全息二维码

第2代

第1代

不同材质

相同尺寸

HDMI线缆认证标签

验证扫描更改
使用现有的HDMI App

第1代

线缆信息验证没有变化，并且APP还会在短期内继续支持扫描

使用当前的
HDMI专属扫描
App

提示信息将会说明无法读取二维码，应该使用标准二维码阅读器读取线缆信息

第2代

HDMI线缆认证标签

验证扫描更改
使用标准读码器应用程序

第1代

没有变化，
使用者被重新指引到应用程序商店来下载专属程式，并在安装后验证线缆信息

使用标准读码器
应用程序同时来
扫描QR码与全息
二维码

线缆信息
已被验证

第2代
